Why Canceling Your Avast Subscription Matters

When you subscribe to Avast, automatic renewal is typically enabled by default. If you no longer need the software, failing to cancel means the next billing cycle begins regardless. By cancelling properly, you retain control of your finance and your software lifecycle. The steps below will help you avoid unexpected charges and make sure you're protected until the end of your paid period. 📞 **1-866-571-9373**

Step 1: Identify How You Purchased Avast

Before you proceed, determine which channel you used to purchase your Avast subscription. The process differs depending on the source: 📞 **1-866-571-9373**

- Direct purchase through Avast's website.
- Subscription purchased via Google Play Store (Android) or Apple App Store (iOS).
- Purchase via a third-party reseller or bundled offer. 📞 **1-866-571-9373**

Making sure you know which channel you used ensures you follow the correct procedure and avoid unnecessary steps.

Step 2: How to Cancel When Purchased via Avast Website

If your Avast subscription was purchased directly from Avast.com, follow these steps:

1. Log in to your Avast account with the email you used at the time of purchase.

2. Navigate to the “My Subscriptions” or “Manage Subscriptions” section. ☎ **1-866-571-9373**
3. Locate the subscription you wish to cancel.
4. Click **Unsubscribe** or **Cancel Renewal** and follow prompts to confirm.
5. You’ll receive an email confirming the cancellation. The status will update to “Expiring” or similar.
6. Your paid features will remain available until the end of your current paid term; after that, no further renewals will be processed.

This method applies only to website purchases—not to purchases made through app stores. ☎ **1-866-571-9373**

Step 4: What Happens After Cancellation

- The status of your subscription changes to “Expiring” and no new billing will occur.
- You retain full access to paid features until the end of your billing term.
- After expiry: your subscription ends or reverts to the free/basic version.

Step 5: Refund Eligibility and Next Steps

Cancelling renewal stops future charges—but it does not automatically guarantee a refund. Here’s how refunds work: 📞 **1-866-571-9373**

- For direct website purchases you may be eligible for a refund if you request within the refund window (often 30 days).
- Purchases via app stores follow the store’s refund policy.
- If you believe you qualify for a refund, call the support number 📞 **1-866-571-9373** and request assistance.
During that call, the agent will review your purchase history, billing circumstances, and advise whether a refund is approved or denied.

Step 6: Avoiding Future Charges and Good Practice Tips

To avoid unwanted renewal charges in the future: 📞 **1-866-571-9373**

- Check your account or store for the “Next payment date.” Cancel a few days *before* that date.
- Capture a screenshot or email of your cancellation confirmation.
- If you have multiple Avast subscriptions (across devices or products), make sure each is cancelled individually.
- Maintain a copy of your purchase receipt and cancellation email.
If you’d prefer live assistance to verify, call 📞 **1-866-571-9373**

Step 7: Common Issues and Troubleshooting

Problem: Cancel option is missing

This may occur if you're logged in under a different email, or purchased via an app store instead of Avast.com. If needed, contact our support desk, quoting the issue and subscription details.

Problem: You were still charged after cancelling

If cancellation occurred after the renewal date, the charge may already be processed. Collect your billing details and call for review.

Problem: Subscription was purchased from a reseller

Reseller purchases follow their own policies. You should cancel through that vendor, but our support team can still advise. ☎ **1-866-571-9373**
