Why Cancelling the AntiTrack Subscription Correctly Is Important

Your AntiTrack subscription is a continuous service that renews automatically unless you cancel it ahead of the next billing cycle. According to AVG's official guidance, you must cancel **before your next billing date** to avoid automatic renewal charges. ☎

Failure to cancel in time may result in another payment being processed—even if you no longer wish to use the product. By following the correct cancellation path, you remain in control and avoid surprise charges. ☎ **1-866-571-9373**

Step 1 – Determine Your Purchase Channel

Before cancelling, you must identify how the subscription was purchased. The cancellation steps vary depending on the channel: ☎ **1-866-571-9373**

- **Direct purchase via AVG website** – managed via your AVG Account.
- **Via Google Play Store or Apple App Store** – managed via the mobile store.
- **Via a third-party reseller or bundle** – may require vendor assistance.

Understanding the purchase channel ensures you follow the correct cancellation path and avoid confusion or delays. ☎ **1-866-571-9373**

Step 2 – How to Cancel if Purchased via AVG Website

If your AntiTrack subscription was purchased directly through AVG:

1. Sign in to your AVG Account at **id.avg.com** with the email linked to your purchase. ☎ **1-866-571-9373**
2. Click on **My Subscriptions** (or “Manage Subscriptions”).
3. Locate the AntiTrack subscription you wish to cancel.
4. Click **Unsubscribe** or **Cancel Renewal**.
5. Confirm your decision and you’ll receive a confirmation email.
6. After cancellation, the status changes to “Expiring” and you retain access until the end of the current term. ☎ **1-866-571-9373**

Important: This cancellation stops future renewals—it does *not* always trigger a refund. Refer to the refund section for eligibility.

Step 3 – How to Cancel if Subscribed via Google Play or App Store

Android (Google Play): ☎ **1-866-571-9373**

- Open **Play Store** → Profile icon → **Payments & subscriptions** → **Subscriptions**.
- Choose the AntiTrack subscription → Tap **Cancel subscription** → Confirm.
- A cancellation confirmation email from Google Play will follow.

iOS (App Store): ☎ **1-866-571-9373**

- On your iPhone/iPad: Go to **Settings** → Tap your name → **Subscriptions**.
- Select the AntiTrack subscription → Tap **Cancel Subscription**.
- You’ll receive an Apple confirmation email and the subscription will stop renewing at the end of the term.

Step 4 – What Happens After Cancellation

- Your subscription status will display as “**Expiring**” (or similar). ☎ **1-866-571-9373**

- You continue to have full access to the service until the paid term ends.
- After expiry: no further renewals; either the product ends or reverts to a free version (if available).
- If you want to verify no future charge is scheduled, call 📞 **1-866-571-9373** to speak with support.

Step 5 – Refund Eligibility and Considerations

Cancelling your subscription stops renewal but does not guarantee a refund. Here's what you should know:

- For many subscriptions purchased directly or via supported stores, you may be eligible for a refund if you request it within the defined window (often 30 days) and meet policy criteria. 📞 **1-866-571-9373**
- If you purchased via a third-party reseller, refund terms vary and may not be managed by AVG directly.
- To request a refund: log into your AVG Account → retrieve your order history → select **Request a refund** (if available) or contact support for help. 📞 **1-866-571-9373**
- Once a refund is approved, you may lose access to paid features immediately.

If you believe you qualify for a refund, call 📞 **1-866-571-9373** and the support team can review your case.

Step 6 – Preventing Unwanted Renewals and Charges

To ensure you don't get charged after cancellation:

- Check your **Next charge** date in your account or store subscription list. Cancelling a few days early gives buffer time. 📞 **1-866-571-9373**
- Keep a copy of your cancellation confirmation email or screenshot as proof.
- Monitor your payment method for unexpected charges after your cancellation date.
- If you have multiple devices or multiple AVG subscriptions, make sure each one is cancelled if no longer needed.
- For personalized assistance, call 📞 **1-866-571-9373**.

Step 7 – Troubleshooting Common Problems

I don't see my subscription in the dashboard

- Make sure you're signed in with the email used at purchase.
- If the subscription was purchased via Google Play or App Store, cancellation must be done through that store—not the AVG website. 📞 **1-866-571-9373**
- If still missing, contact AVG Support to manually link the subscription to your account.

The “Unsubscribe” or “Cancel Renewal” button is missing

- In some cases, the system has already flagged renewal for cancellation, or cancellation must be done via store. In these situations, call support. 📞 **1-866-571-9373**

I was charged after I thought I cancelled

- If you cancelled after the renewal date, a charge may still go through. Verify your account's next billing date. 📞 **1-866-571-9373**
- If you think you were charged unfairly, contact support and ask about refund eligibility.

Purchased via reseller or bundle and unclear how to cancel

- Contact the reseller directly, as cancellation and refund policies may differ. 📞 **1-866-571-9373**
- You may still call AVG support for assistance in confirming the subscription source.

Why Following the Official Process Matters

- Ensures you stop further charges and maintain control over subscriptions.
- Helps you have documentation (emails, status updates) in case of disputes.
- Avoids relying on unclear forum advice or third-party cancellation services.

- Keeps your account secure by using official channels and verified phone support. ☎ **1-866-571-9373**

By following these steps, you protect your financial interests and ensure the cancellation is handled correctly.
